Evergreens and Shrubs

AMERICAN ARBOR-VITAE
Balled and Burlapped Ready for Shipment
THE ARBOR VITAE

This ornamental group as a whole, though including many varieties of upright growth, does not attain great heights at maturity, and is adapted to small lawns as well as large areas. The soft, fern like foliage blends admirably in group or border plantings while their neat habit and compact appearance make them valuable for cemetery specimens, or individual planting on open lawns, in window boxes, vases, or for house decorations.

American Arbor Vitae. The most popular of the Arbor Vitae family; valuable for screens or hedges. We can supply all sizes of this variety, running as large as 4 to 5 feet, at \$3.00. 12 to 18 in., B&B, 75c; 18 to 24 in., B&B, \$1.25; 2 to 3 ft., B&B, \$2.00.

Compacta Arbor Vitae. Handsome, cone-shaped, compact grower. These are appropriate in various plantings, and a very desirable sort. Each: 12 to 18 in., B&B, \$1.75; 18 to 24 in., B&B \$2.25.

Pyramidal. Foliage deep green retaining its color throughout the year. Fine for tub, porch or special plantings. B&B, each: 18 to 24 in., \$1.75; 2 to 3 ft., \$2.25; 3 to 4 ft., \$3.00; 4 to 4½ ft., \$5.00.

Siberian Arbor Vitae. A hardy variety with bluish-green foliage. Of low, stocky pyramidal growth, forming a broad, dense bushy effect. B&B, each: 12 to 18 in., \$1.50; 18 to 24 in., \$2.25.

Globosa. A dense, thick evergreen of dwarf habit. 12 to 18 in., B&B, \$2.00 each; 18 to 24 in., B&B, \$3.00 each.

Tom Thumb. Smallest, compact Arbor Vitae with feathery foliage. 10 to 12 in., \$1.25 each; 12 to 18 in., B&B, \$2.00.

Hovey's Golden. A small tree, globular in form; foliage light green with a golden tinge and very compact; hardy. 12 to 18 in., \$2.00; 18 to 24 in., \$3.00.

JUNIPERS

Juniper Sabina (Savin Juniper). A spreading form with dark green foliage. It is valuable for rockeries, grouping and borders, making a fine effect with other sorts. 12 to 18 in., B&B, \$2.00 each.

JUNIPERUS

J. Hibernica. (Irish Juniper). Of slender columnar habit with glaucous green foliage. Useful for formal plantings. 18 to 24 in., \$2.00 each.

Retinispora Plumosa. A Japanese variety of soft plume-like feathery foliage of light green; graceful in habit of growth. 18 to 24 inches, \$1.50 each; 24 to 30 inches, \$2.25 each.

PINE—PINUS

Austrian (P. Austriaca). A tall tree, with a broad, ovate crown; leaves in pairs, about four inches long, rigid and very dark green; cones two or three inches long of a glossy yellowish-brown color. A fast growing, dense tree of great adaptability. 18 to 24 inches, \$2.00 each.

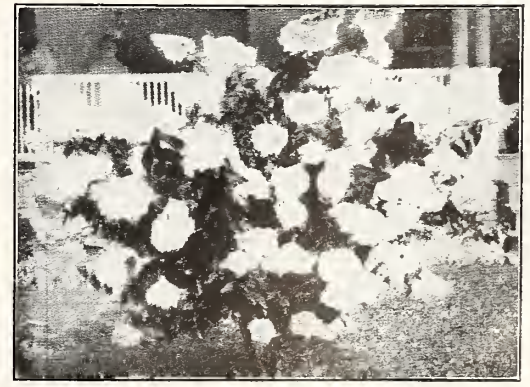

Black Hills Spruce. Dark green, perfectly hardy, very compact, the best for general planting. It is superior to any as a windbreak. Easily transplanted. A native of western South Dakota. 12 to 18 in., \$1.25 each; 18 to 24 in., \$2.00.

Norway Spruce. (P. Excelsa). Rapid growth, graceful, drooping branches; long and dense in structure; regular in outline and perfectly hardy. 18 to 24 in., \$1.25 each; 2 to 3 ft., \$2.00 each.

ORNAMENTAL SHRUBS

Althea. (Rose of Sharon). Strong, erect-growing shrub of easiest culture, perfectly hardy and a prolific bloomer. Large, showy flowers in late summer when few other shrubs are in bloom. Assorted colors. 18 to 24 in., 25c each.

Forsythia—(Golden Bell.) One of the earliest shrubs to bloom in spring time. The long branches are covered with golden yellow flowers before the leaves appear. Foliage dark green and one of the best shrubs for foliage. Grows well in the shade. 3 to 4 ft. 35c; \$3.00 for 10; 4 to 6 ft., 50c.

HYDRANGEA

CORNUS

Stolonifera. (Red Twig Dogwood). Medium sized and spreading, dark red bark and white flowers, berries white. 2 to 3 ft., 35c each.

Yellow Twig Dogwood. 2 to 3 ft., 35c each.

DEUTZIA

One of the finest of shrubs for abundance of pretty blossoms which cover the plants in early spring. Can be used in borders, mass or specimen planting. Very good.

D. Gracilis. Of dwarf habit. Flowers pure white. One of the first to bloom. Fine for edging in front of taller shrubs. 2 year, 35c.

D. Pride of Rochester. Produces large double white flowers tinged with rose. Profuse bloomer. One of the best. Flowers early. 1 year, 15c; 5 to 6 ft., 50c.

Hydrangea Arborescens. (Snowball Hydrangea). Has the appearance of a low-growing snowball with its large clusters of white flowers. Particularly desirable on account of coming into bloom before the *H. paniculata*. Its blooming period is from early June until middle of August. A very desirable shrub. 3 ft., 40c each; 2 to 3 ft., 30c; 12 to 18 in., 15c.

Hydrangea, Paniculata. One of the most popular shrubs in cultivation, blooming at a time when few shrubs are in bloom. Flowers borne in huge panicles from 8 to 12 inches long, delicate pink changing to brown. Very desirable lawn ornament. 2 to 3 ft., 35c; 3 to 4 ft., 50c.

Spirea--Meadow Sweet

The Spirea is one of the best shrubs grown. Very attractive for garden or shrub border.

S. Anthony Waterer. A fine dwarf Spirea with dark crimson flowers. 12 to 18 in., 35c; 18 to 24 in., 50c.

S. Billiardi (Billiard's Spirea). Flowers are rose colored. Blooms nearly all summer. 3 to 4 ft., 40c.

S. Bumalda. A handsome variety from Japan. Dwarf in habit and vigorous growth. Foliage narrow; flowers rose colored and borne in great profusion. Blooms a long time. 12 to 18 in., 35c.

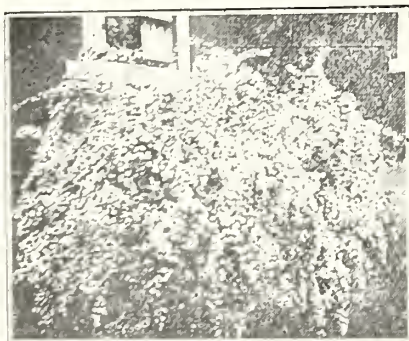

S. Opulifolia (Var Aurea). 6 to 8 feet. The foliage is yellow in spring, changing to golden bronze in autumn. 18 to 24 in., 25c; 2 to 3 ft., 35c.

S. Callosa Alba. One of the best dwarf white-flowering shrubs. Very symmetrical. 12 to 18 in., 35c.

S. Prunifolia. Small, double white flowers borne close to the branches, making long snow-white garlands. Foliage a dark shining green, changing to autumn tints in the fall. One of the most popular. The true Bridal Wreath. 3 to 4 ft., 50c; 2 to 3 ft., 35c.

S. Reevesiana. Slightly drooping, covered in May with clusters of double white flowers. 3 to 4 ft., 35c; \$3.50 for 10.

S. Thunbergi. (Thunberg's Spirea). Dwarf in habit with rounded graceful form. Branches slender and drooping. Flowers pure white; foliage narrow and long, turning to orange-scarlet in the fall. Valuable for planting in front of other shrubs. 2 to 3 ft., 35c each.

SPIREA VAN HOUTTEI

S. Van Houttei. This is undoubtedly the most charming and beautiful of all the varieties, having pure white flowers in clusters, the branches

drooping to the ground. Foliage a rich green. Very profuse in bloom and plants remarkably hardy. An indispensable ornament for lawn or hedges. The variety most commonly planted. Commonly called Bridal Wreath.

2 to 3 ft. 35c; \$3.00 per 10; \$25.00 per 100.

3 to 4 ft. 40c; \$3.50 per 10; \$30.00 per 100.

4 to 5 ft. 50c; \$4.50 per 10.

KERRIA-CORCHORUS; GLOBE FLOWER

An attractive shrub with slender green branches and showy yellow flowers. It thrives in almost any well-drained soil. Hardy, but benefited by protection from cold winds in severe climates. 18 to 24 in. 40c each; 2 to 3 ft. 50c.

Indian Currant. (S. Vulgaris). Similar to the Snowberry except that its fruits are red, and that the smaller red berries cluster in thick ropes along the weighed-down stems. Mail size, 20c each; 3 to 4 ft., 35c each.

LONICERA

Tartarian Honeysuckle (L. Tartarica). Eight to 10 feet high with numerous branches; bright green; blossoms in late spring with white or pink flowers. 3 to 4 ft. 35c.

LILAC—SYRINGA

Common Lilac. Up to 25 feet in height; dense panicles of flowers of the most delicious fragrance. 2 to 3 ft., 35c.

Double Lilac. Are more dwarf than the single flower kinds; the flowers last longer but do not bloom so profusely.

Charles X. Rich, reddish purple flowers, luxuriant glossy foliage and a rapid grower.

Ludwig Spaeth. Flowers strikingly handsome and of enormous size. A deep rich wine color—fine.

Marie Legraye. Beautiful creamy white flowers of enormous size, dwarf habit; one of the most popular; single.

President Grevy. A magnificent clear blue lilac, very double and large. Best of the blue sorts. Named varieties, 18 to 24 in., 50c.

Golden Elder (S. Nigra Aurea). Six to 15 feet; similar to the American except the foliage is an attractive golden color. 2 to 3 ft., 35c.

Purple Fringe or Smoke Tree. Ten to 12 feet high with spreading branches; foliage green, changing to brilliant red and yellow in autumn; the blossoms take the form of very bright, mistlike flowers, having the appearance of smoke at a little distance, and last during mid-summer. 2 years, 2 to 3 ft., 50c.

TAMARIX

Africana. Very graceful shrub with feathery foliage and long, slender racemes of pink flowers in early summer. Very striking at the edge of an evergreen border. 2 to 3 ft., 35c.

Gallica. Slender, spreading branches, the leaves dull bluish green. Buds are globose, the flowers flesh white in delicately paniced racemes. May-July. 2 to 3 ft., 25c each.

Opulus. High bush cranberry. 12 to 18 in., 30c each.

Weigela (Diervilla). **Eva Rathke.** Flowers a brilliant crimson; a beautiful clear, distinct shade. 12 to 18 in., 15c; 2 to 3 ft., 35c.

Rosea. An elegant variety with fine rose colored flowers appearing in June. 12 to 18 in., 15c; 2 to 3 ft., 35c.

BARBERRY

Red Leaved Barberry. A beautiful new variety with bronze red foliage. Size 1 year old. 55c each; 3 for \$1.50; 6 for \$2.85; 12 for \$5.50.

Japanese Barberry. (Berberis Thunbergi). A most beautiful dwarf Barberry from Japan. Changing in autumn to beautiful tones of orange, scarlet, and crimson. 12 to 18 in. 15c; \$12.00 per 100.

BUDDLEIA (Butterfly Bush)

Variable Magnifica. 3 to 4 feet. Produces long racemes of lilac-like flowers in July and August. 35c each; 3 for \$1.00.

PRIVET—LIGUSTRUM

Armcor River Privet. (L. Amurense). A valuable ornamental shrub for hedges and borders. Very hardy. 12 to 18 in., \$5.00 per 100.

Ibota. (Japanese Privet). Large glossy, distinct foliage; fragrant white flowers produced in great profusion. Excellent hedge plant. Very hardy. \$5.00 per 100.

AZALEA

Mollis. A beautiful species recently brought from Japan; it has fine, large trusses of flowers in shades of pink and yellow; requires some protection.

\$3.00 each per clump, balled and burlapped ready for shipment.

TREES

MAGNOLIA

Cucumber Tree. A splendid pyramidal tree that grows to a great height, flowers yellowish-white, and fruit resembles a cucumber. A most valuable hardy shade tree. 3 to 4 ft. \$1.00.

Magnolia, Tripetella. (Umbrella Magnolia). A medium-sized spreading tree. Leaves a foot or more long, glossy bright green. In late May it bears enormous white flowers 8 to 10 inches in diameter, followed by bright red seed pods. 3 to 4 feet, \$1.00.

MOUNTAIN ASH—SORBUS

European. A small tree with spreading branches, forming a round crown; leaves dark green turning yellow in autumn; flowers white and flat cymes, followed later by bright red berries which remain on the tree throughout the winter months. 4 to 6 ft., \$1.00.

KOELREUTERIA

Varnish Tree. A small, hardy tree with a round head and long panicles of showy yellow flowers the latter end of July. Grows twenty-five to thirty feet tall. Leaves light green, fading to yellow and bronze in the fall. Makes a rather pretty lawn tree. 3 to 4 ft., \$1.00.

BUTTERFLY BUSH

TREES—Continued

BIRCH—BETULA

Cut Leaved Weeping. Trembling, vigorous and hardy. A most beautiful tree with its leaves trembling in the lightest breeze. Its bark glistening from the bright foliage and sparkling in the sun. 5 to 6 ft., \$2.50.

European White Birch. 4 to 6 ft., \$1.00.

Lombardy Poplar. (*Populus fastigiata*). A native of Europe. Remarkable for its erect growth and tall, spire-like form. 4 to 5 ft. 35c; 5 to 6 ft., 60c.

Catalpa Bungei. (Chinese). A remarkable species, forming a dense, round, umbrella-like head; makes a beautiful lawn tree when grafted or budded on a high stem. 5 to 6 ft. stems, \$1.50.

Soft or Silver Leaved Maple. A rapid growing tree of large size, irregular rounded form; foliage bright green; for streets and parks; attains about the same height as Norway. 12 to 15 ft., \$1.50 to \$2.00. Sold at nursery only.

ROSES

HARDY EVERBLOOMING ROSES

Columbia. The rich pink flowers are large and double. They are fragrant and bloom until late fall. A strong grower and almost thornless.

FRAU KARL DRUSCHKI

Etoile de France. Velvety garnet-red cup, with center of vivid cerise. Flowers very large and full, with marked imbrications. Fragrance and sturdy growth.

Gruss an Teplitz. Intense depth and richness of color; velvety crimson-red. Extremely free flowering, its flower brilliancy and reddish green stems and foliage making it one of the showiest garden types.

Jonkheer J. L. Mock. A very dependable rose, exceedingly large and full. The petals are silvery rose inside, and the outside is carmine-pink. Very fragrant.

Kaiserin Augusta Victoria. A pleasing pearl-white shading to lemon-yellow in the center. Beautifully formed, fragrant flowers on long stems.

Lady Hillingdon. Beautiful apricot-yellow, shading to orange. No collection of roses is complete without this handsome variety. Strong and vigorous.

Mme. Butterfly. A beautiful sweet-scented rose with delicate flowers of an exquisite pink color, shaded with gold. The fine buds open into large flowers.

Mrs. Aaron Ward. Buds deeply cupped, producing, when open, a delightful and attractive deep golden orange bloom, shading to creamy yellow.

Radianee. Carmine rose-pink of a beautiful clear shade. Constantly in bloom from early spring until late fall. A strong grower of graceful upright habit.

Red Radianee. Brilliant cerise-red blooms, particularly attractive when half open. The flowers hold their colors very well and have a sweet, delightful fragrance.

Sunburst. An exquisite brilliant orange-yellow, with a lighter buff center. Even though the color lightens when opening, it is one of the best cutting roses.

HYBRID PERPETUAL ROSES

Frau Karl Druschki. Very large, perfect form and snow-white; a vigorous grower and a free bloomer.

General Jacqueminot. One of the most popular of the red roses; brilliant crimson, large and very effective; very fragrant and one of the hardiest.

Paul Neyron. Said to be the largest rose in cultivation; bright, clear pink, very fragrant, hardy and a strong grower.

2-year field-grown roses, No. 1, 40c each; 10 for \$3.50.

CLIMBING ROSES

Climbing American Beauty. Rich rosy crimson, sweet-scented flowers on a strong-growing climbing vine. Blooms profusely.

Crimson Rambler. Bright crimson flowers produced in large clusters of pyramidal form; grand variety for pillars and arches and to train over porches; also makes a fine attractive hedge.

Dorothy Perkins. Clear, shell-pink flowers borne in large clusters of twenty-five to thirty, sweetly scented, full and double with crinkled petals. Foliage stays on a long time.

Dr. W. Van Fleet. Probably the best climbing rose, with attractive pinkish red flowers. Very showy.

White Dorothy Perkins. (W). White Dorothy Perkins in every way is the equal, if not superior, to Crimson Rambler, as a red, and Dorothy Perkins as a pink. This rose has no rival as a white climber.

Climbing Roses, 2 years, No. 1, 35c each; 3 for \$1.00.

HARDY PERENNIALS

AQUILEGIA (COLUMBINE)

These are plants of elegant habit, distinct in foliage and flowers. The latter form a showy crown well above the clear cut leaves. All the species like partial shade.

COREOPSIS

Lanceolata Grandiflora. Two feet June-October. Large orange-yellow flowers on long, graceful stems. The best yellow cut flower perennial.

Campanula (Bellflower). (*Calicanthema*) ("Cup and Saucer"). Hardest and most popular form. We offer three separate colors; blue, rose or white.

Delphian Belladonna. (Everblooming Hardy Larkspur). The most beautiful sky-blue flower. Blooms all summer till frost. 3 to 4 feet high.

D. Bellamosa. A dark blue type of the Belladonna, with the color of Formosum. A strong grower.

Digitalis (Foxglove). 3 to 5 feet. One of the most popular of all perennials.

False Indigo, 2 year.

Gaillardia (Blanket Flower). *Grandiflora*. Flowers variegated with shades of red and yellow. We consider the Gaillardia to be one of the most desirable plants in cultivation.

Gypsophila (Baby's Breath). *Paniculata*. 2 to 3 feet. July-August. Small flowers on branched stem; so thick as to give the plant a white lace-like effect.

Hibiscus (Mallow). *Mallow Marvels*. Shrub-like plant with handsome green foliage.

Pink—Large pink flowers with maroon eye. **Red**—Flowers 6 inches across; dark red.

Crimson Eye—Creamy white with crimson center.

Lathyrus (Hardy Sweet Pea). Red, Pink, White.

Pyrethrum, or Painted Daisies.

Platycodon (Balloon Flower). *Grandiflora*. Large blue flowers; borders or rock gardens.

Shasta Daisy. (*Chrysanthemum Maximum*) Alaska. Fine semi-double white.

TRITOMA (Red Hot Poker)

Pfitzeri. We offer strong plants. Require protection unless in sheltered position. Rich orange-scarlet. Strong divisions.

Osmunda Cinnamomea. (Cinnamon Fern). Rich open land or shaded border is agreeable to this fern which grows four feet tall with spreading fronds.

Regalis. (Royal Fern). Tall branching fronds of big vigorous habit. Best in moist ground, with partial shade but grows almost anywhere.

MALLOW OR HYBISCUS

IRIS GERMANICA—German Iris

This group blooms in May with wonderful combinations of colorings; leaves broad, sword-like. We have an assortment of the best varieties.

Alcazar. Very large, broad petals. Standards pale lilac blue with golden bronze throat; falls rich violet purple. Rated 8.9. 35c each; \$3.50 per dozen.

Black Prince. A rare and new variety. Standards mature deep violet-blue. Falls velvety purple; very rich. Excellent.

Her Majesty. Standards lovely rose-pink; falls bright crimson, tinged a darker shade.

Honorabili. Standards golden yellow; falls rich mahogany-brown.

Lohengrin. A soft shade of Cattleya rose, except for a weakening to almost white at the claws.

Mme. Chereau. White, elegantly frilled, with a wide border of clear blue; one of the most charming sorts.

Mrs. H. Darwin. Large white with violet veins.

Queen of May. Soft rosy lilac, nearly pink. Very good.

Japanese Iris. Assorted colors.

HARDY PHLOX

Athis, Salmon.

Rhineland, Salmon Red Eye.

R. P. Struther, Salmon.

Terre Neuva, Lavender.

Sunset Pink.

Rosenberg, Purple, Red Eye.

Ferd Cortez, Red.

Percher De Isle, Pink.

Enleureur, Red.

Rhinestrom, Large Pink.

Pantheon, Salmon Rose.

Champs Elysses, Purple.

Mrs. Chas. Dorr, Beautiful Lavender.

Oriental Poppy, Orange Red.

All Perennials 15c each, 8 for \$1.00; by parcel post 15c straight

DELPHINIUM—Larkspur

GLADIOLUS

Albania. An excellent variety for cutting. Flowers pure silvery white, with petal edges daintily ruffled.

E. J. Shaylor. Is rapidly coming to the front as the leading pink Gladiolus for cutting. Color, deep rose pink; slightly ruffled. An excellent forcer.

Evelyn Kirtland. Beautiful rosy pink, shading to light pink toward the center, with blotches of scarlet on lower petals. An excellent commercial variety.

Gretchen Zang. Beautiful shade of soft pink.

Joe Coleman. Very large and vigorous. Flowers rich red.

Maiden's Blush. (Prim). A large percentage of the bulbs produce two flowers. Color, blush pink. Long stems. Especially fine for greenhouse forcing.

Mary Pickford. The best white for cutting. Large flowers on tall stems; excellent keeper. Flowers delicate creamy white, throat of sulphur yellow. We recommend Mary Pickford highly.

Rev. Ewbank. The best porcelain blue. Very scarce.

4 cents each or 35 cents per dozen.

I have many items in small quantities not listed.

Extra large shrubs, at nursery only, at Bargain Prices.

MME. CHEREAU—German Iris

E. J. SHAYLOR—GLADIOLUS

HARDY BROAD-LEAVED FLOWERING EVERGREENS

Broad-Leaved Evergreens, a native of the Blue Ridge and Allegheney Mountains. They are hardy from Georgia to the New England states; also the most beautiful shrubs in cultivation.

Rhododendron Maximum. A magnificent plant, spreading in growth. Leaves dull green, four to six inches long; flowers 1½ inches across in dense clusters; color light pink; very hardy.

Rhododendron Catawbiense. One of the most beautiful of the hardy, native flowering shrubs. Reddish purple flowers 1½ inches across, borne in large trusses in late May. Thrives in sun or shade.

Kalmia Latifolia. (Mountain Laurel). A beautiful native shrub of the easiest culture. In late May and early June it is literally covered with white to pink wheel-shaped flowers. The glossy dark green foliage lighter beneath is attractive at all seasons.

Ilex Opaca. (American Holly). A slow-growing tree, having short, spreading branches, with large, shining thorny leaves; bright red berries in winter. Perfectly hardy if given a position sheltered from severe winter winds.

Prices at Nursery only.

FOR SALE

One Hardie barrel spraying outfit; never been used; at half price.

Guarantee—Everything is guaranteed to be alive and in growing condition when it leaves my nursery.

Terms—Cash with order. No order accepted for less than \$1.00.

References—First National Bank, Amo, Ind., or Dunn's Agency.

Location—One mile east and one mile south of Amo, Ind. Amo Phone.

All stock listed subject to being sold out.
